Introduction to Communication System[CT216].

I,Khushi Shah,Student Id: 202401471,declare that:

- The work that I am presenting is my own work and I have not copied the work that someone else has done.
- The concepts, understanding, and insights I will be describing are my own understood during ongoing classes.
- Wherever I have relied on an existing work from a source, I have provided a proper reference citation.
- I make this pledge truthfully. I know that violation of this solemn pledge can carry consequences.

1. Modulator:

```
th = linspace(0,2*pi,500);
